Our Innovation and Design

ECO FRIENDLY

Our wide range of products are totally eco friendly which saves waters up to 6 liters in each use as well as nature. We made ceramic is more durable than other materials, which gives it a longer life.

USER FRIENDLY

At TITA, all product portfolio having categorized to different customer according to customer usage so customer can choose according to own preference. To give luxury to bathroom experience.

HYGIENIC

TITA products are more hygienic than others as customer no required to clean with chemicals every time so, customer can have more hygiene and sophisticated eye during use.

Our Technology

“Crafted with the most advanced tools”

Human hands. we believe that machine made products can not give enough experience which hand made gives. That's why we at TITA and our designer have imagined each piece, from beginning to end. The thoughtfulness extends to the buyer/end user who experiences all effort and skill.

Hand made product are high in quality not just because of their price but maker understand the value of each piece and highly skilled creators of handmade item care greatly about the quality and materials they used.

Tita Clean Technology

TITA research and development team has a new technologically advanced compound called - “TITA CLEAN TECHNOLOGY” these compounds are used inside and outside with extra layer of coating, which helps to reduce the accumulation of germs and bacteria with self reduction of 99%. The TITA CLEAN and extra layer of coating help to increase strength and reduce porous surface inherent in ceramics. The first layer of the compound is sprayed white and fills any gaps that might be present before the heat treatment process. We apply a third layer that makes the ceramic's surface smoother.

TITA CLEAN SURFACE

Flush Technology

Tornado

Tornado flush system features two powerful nozzles that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush than most toilets are with multiple flushes.

Siphonic

The siphonic flush system is also known as the suction flushing system. The siphonic flush system creates the narrow 'Q' shaped trap way. You'll have a cleaner bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

Siphonic with Tornado

The combination of siphonic & tornado will bring the highest quality of hygiene into your bathrooms. With the help of this advanced & one of the easiest to maintain flushing systems, it'll be easier to keep up with cleanliness in just a second. TITA will introduce you to its brand new features 4D & 5D flushing system.

Wash Down

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

Coating and Clay

Tita Coating

An unconventional & amazed technology which will accurately & precisely pay attention to the every aspect of today's times. We strongly value the nature and provide the best bacteria free material to our clients.

Tita Clay

TITA's immense encouragement towards clay technology enhances the properties of PURIFICATION, AGEING, BACTERIAL ACTION ETC. The R&D team and the engineers have done their best efforts and made the bacteria free clay which has the world class quality ever. TITA has believed and used clay efficiently and mainly for the moulding & drying properties.
